

**Custom Formulation**

An Eybna Product

# Craft your exclusive terpene formulation

## Why custom formulation?

Empowering your brand, made exclusive and consistent. Introducing Eybna's custom formulation to solely match the whole-plant qualities to your oil-based product needs.

### Tailor-Made To Fit Your Exact Needs

Terpene formulation based on your specific strain analysis or created from scratch according to your needs and product statement.

### 30-Day Development

Our dedicated development team guarantees a short turn-around time and product satisfaction.

### 100% Exclusive to Your Brand

Once developed for you, the custom formulation will be produced on a made-to-order basis and exclusively for you.

## How is it made?

### The Quality Is In The Raw Ingredients

Using only 100% natural, food-grade and highest purity isolated compounds from five different molecular classes to create a precise, deep and high-resolution formulation.

Monoterpenes

Sesquiterpenes

Diterpenes

Esters

Ketones

### Optimization Per Product Application

Adjustment of formulation based on product's final application and delivery system, to optimize its functionality and efficiency.

Tinctures

Inhalables

Consumables

Topicals

Others

## What will you get?

### Fine Tuning Feedback Round

Your opinion is part of the development. Feedback round with our R&D team will verify the final product fit.

### Full Product Documentation

Custom Safety Data Sheets, 3rd party CoA and Spec sheet will be supplied with every batch.

### Formulation Consulting

Pick the brains of our entire team! Chemists, biologists and flavorists that will support the integration process with their knowledge on product safety, dosage and delivery systems.

### Exclusive IP Rights

The custom formulation will stay as your Intellectual Property and will be available for purchase only to you with a Certificate of Exclusivity.
