

Palate Line

Taste The Hidden Notes of Cannabis

Eybna's Palate Line brings the whole-plant cannabis experience with appealing and immersive taste that features unique blends of terpenes and additional botanical molecules. Revealing the hidden notes in cannabis to deliver diverse, sensational experiences.

Discover a whole palette of experiences

Enhancing the natural fruity nuances that exist in unique cannabis phenotypes to create a delicious and first of its kind taste experience. From sweet berry to fresh citrus, the Palate Line brings out the pleasant and distinct notes of selected cannabis phenotypes.

Amplifying strains' distinction

By researching the wide aroma and taste spectrum of cannabis, we were able to introduce several molecular classes to create a more distinct and broad palate experience.

Perfected for vape and tincture use

Our Palate Line collection features unique blends of food grade botanical terpenes and high purity natural molecules that harness bold palate combinations to deliver sophisticated but finessed tastes and smells. Perfect for building a distinguished and harmonious mouthfeel and taste profile.

FPOG

A tropical, citrus and berry flavor reminiscent of cereal.

Thin Mint

A sweet and minty strain from the phenotype of the legendary Girls Scout Cookies.

Cherry Pie

A well-balanced strain with a piney, hash-like scent with fruity and cherry undertones.

Chocolate Cake

A sweet chocolate lava cake scent with hints of mint and fruit.

Mango Haze

Reminiscent of a juicy mango with hints of citrus and earthy sweetness.
